OASI, A DENTAL UNIT THAT MAKES LIFE SO EASY

Selling Oasi is a pleasure: it is a dental unit that breathes quality, makes work simple and offers a whole host of advantages.

1 Take delivery & Install it

The Oasi dental unit comes ready for installation. No special procedures are necessary: just unpack it and connect it up.

2 Switch it on & Use it

The Oasi dental unit is simple and user-friendly, no thick manuals or lengthy studying are needed to learn to use it. This is a great advantage for the installer too, who can start it up in the shortest possible time.

In the best tradition of Italian design, Oasi is elegant and stylish. It will meet with the approval of your customers at first sight.

4 Reliable & Safe

The Oasi dental unit has been built with the utmost attention paid to quality, so servicing or repairs are kept to the absolute minimum. It will leave your customers completely satisfied, opening up the road to even more sales in the future.

A PARTNER WITH LOTS OF VALUES

The strength of the Dentsalmatic brand is at your side to gain new market segments.

Sales back-up

Dentsalmatic provides you with a kit that will help with your sales:

- a high level corporate folder illustrating the history of the company
- a fully detailed product folder

A historical brand made in Italy

Founded in the 1970s, Dentsalmatic was a leading player on the European market for two decades.

It is an entirely Italian-owned company based in Bologna, in the heart of one of the most important world hubs of the dental industry. In 2012 the Dentsalmatic brand returned to the market under new ownership and with new prospects for development.

NO OBLIGATIONS, BIG EARNINGS

Working with Dentalmatic is simple: our company offers you a partnership based on maximum flexibility, so we can achieve the best market results together.

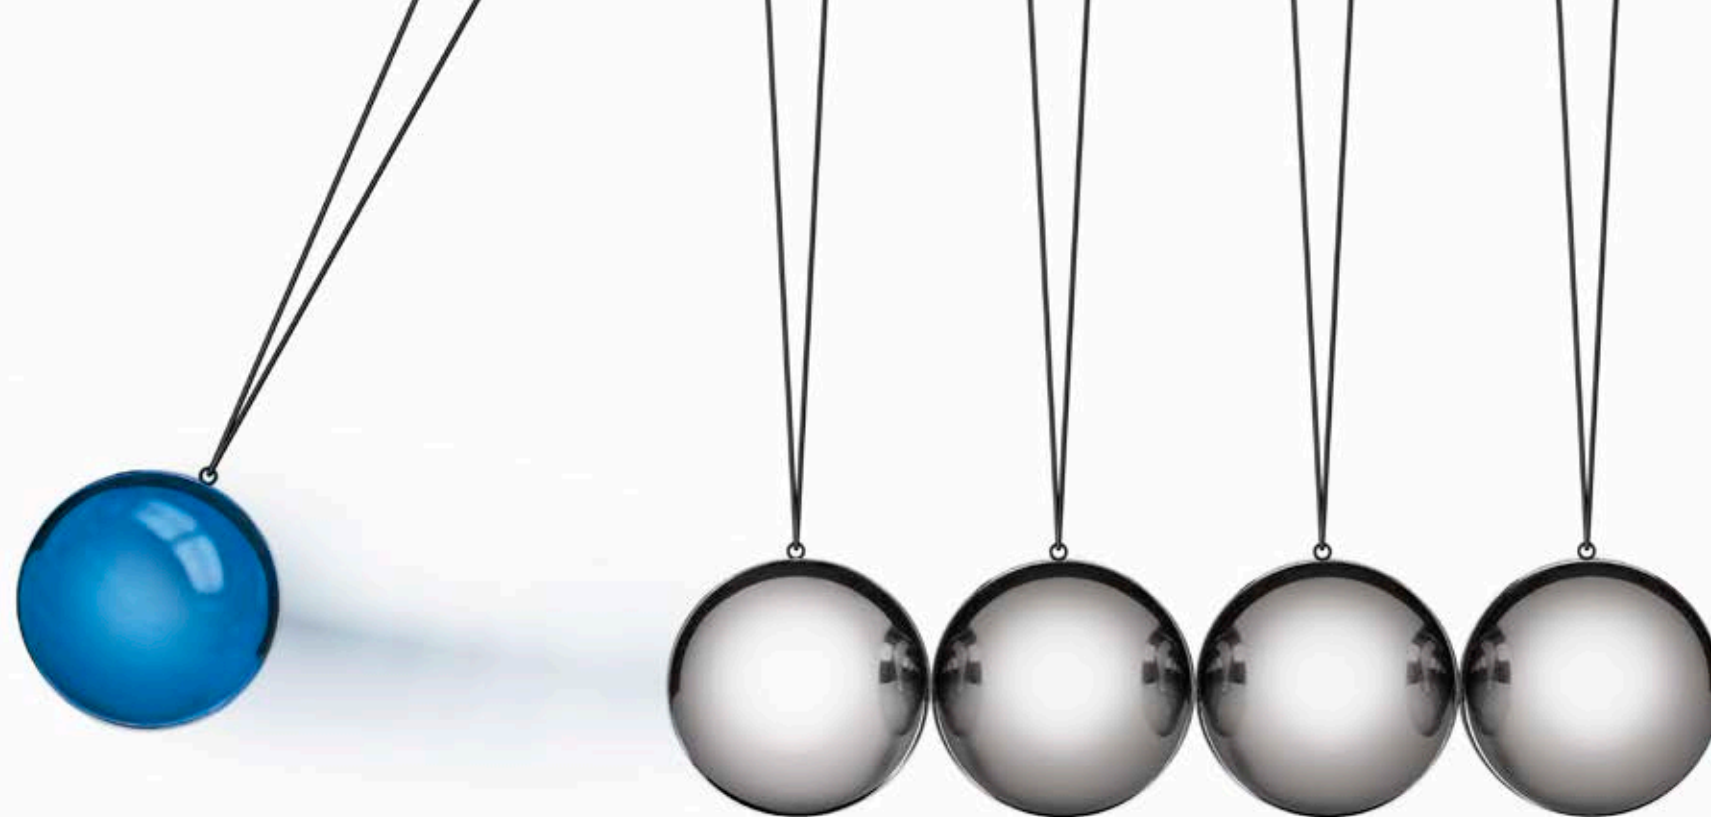

No ties

Unlike other manufacturers, Dentalmatic does not demand a minimum turnover and does not ask for stock to be held. There are no investment costs: just buy what you sell.

Good profit margins

Your sales efforts are rewarded with a suitably lucrative percentage mark-up.
